

# Annual Seminar

July 2021

## Preliminary programme

### Thursday, July 1<sup>st</sup>

- 09:45** Welcome speech & Update from the Canceropôle Provence-Alpes-Côte d'Azur
- 10:30** Presentation from INCA
- 10:50** Teasing Poster Session
- 11:15** **Onco-Immunology Session**  
Featured publication "A size & space structured model describing interactions of tumor cells with immune cells reveals cancer persistent equilibrium states in tumorigenesis"  
*K. Atsou, UCA / Inria, Nice*
- 11:35** Teasing Poster Session
- 11:55** Teasing Partners
- 12:10** Lunch Break
- 13:40** Platforms, Industrials Session & Poster Session
- 14:20** SHS-E-SP Oral Communication (to be announced soon)
- 14:35** **Newcomer in the Region**  
"Introducing COMPO: COMPUTational pharmacology and clinical Oncology. Optimization of therapeutic strategies by mechanistic and statistical modeling"  
*S. Benzekry, CRCM / Inria, Marseille*
- 14:50** **The Talented Young Researchers popularize the Science** - SATT Sud-Est & Patient Associations Awards
- 15:20** **Hematology Session**
- Emergence call "Studying epigenetic deregulation in normal T cell differentiation & leukemia by high-throughput approaches"  
*S. Spicuglia, TAGC, Marseille*
  - Technological Innovation call "How to detect interstrand crosslinks in one click?"  
*C. Lachaud, CRCM, Marseille*
  - Oral Communication "Follicular lymphoma reveal their secrets through our genetic mouse model"  
*N. Mossadegh-Keller, CIML, Marseille*
- 16:20** **Awards Ceremony** - The Talented Young Researchers popularize the Science
- 16:40** Platforms, Industrials & Poster Session
- 17:40** End of the first day
- 18:30** Departure for Animation & Dinner

### Friday, July 2<sup>nd</sup>

- 09:15** Welcome coffee
- 09:30** **Solid Tumors Session 1**
- EmA call "Development and preclinical validation of potent biguanide derivatives in melanoma treatment"  
*S. Rocchi, C3M, Nice*
  - Translational & Clinical call "Identification of biomarkers from the ECM-innate immune cell axis for patient stratification and response to treatment"  
*F. Anjuère, IPMC, Valbonne*
  - "HER2+ metastatic breast cancer management: recommendations & new perspectives in 2021"  
*Speaker to be announced soon*
- 10:40** **Oncopediatrics Session**
- "Pediatric models as opportunities to collaborate"  
*N. André, AP-HM / AMU, Marseille*
  - "Screen & Click : an innovative strategy to discover druggable targets in pediatric cancers"  
*E. Pasquier, CRCM, Marseille*
- 11:10** Coffee break & Poster Session
- 11:40** **Highlights of the year in Oncology & Hematology**  
*E. Saada, CAL / UCA, Nice*  
*R. Sabatier, IPC / AMU, Marseille*  
*T. Cluzeau, CHU de Nice / UCA*
- 12:30** Lunch Break
- 14:00** **Speech from Fondation ARC**
- 14:20** **Solid Tumors Session 2**
- Oral Communication "A new toolbox to study human physiology: virus based system for genome editing 'nanoblade' & painting 'nanopaint' in synthetic organs"  
*A. Krug, C3M, Nice*
  - Oral Communication "Biophysical forces rewire cell metabolism to guide microtubule-dependant cell mechanics"  
*S. Torino, IPMC, Valbonne*
  - Emergence call "CD98hc as a druggable target for a defined subpopulation of KRAS-driven lung cancer"  
*L. Seguin, IRCAN, Nice*
  - Featured publication "HMGCL & its product β-hydroxybutyrate promote pancreatic cancer progression"  
*S. Vasseur, CRCM, Marseille*
- 15:40** **Awards Ceremony** - Oral Communications & Posters
- 16:30** End of the Seminar

**canceropôle**
